**DESCRIPTION**

Bordeaux is a collection inspired by natural Pierre de Bourgogne, a stone that has played a leading role in the history of French architecture. With the aid of a look that has helped to write history, the collection responds to today’s latest architectural trends, expressing the exclusive, impeccable style that is contemporary beauty. Slight, irregular marks recall fossil shells, while delicate variations in colour mask the strength of a ceramic material with outstanding technical properties. A special honing process gives the material a soft gleam that adds stylish iridescent glints to design schemes.

**INSTALLATION & MAINTENANCE**

Bordeaux may be installed using standard ceramic tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architectural Ceramics sales representative will advise you on general installation questions.
