OUTDOOR FLOOR DESIGN

Frontier20 Passion Silver - 24"x24"

Indoor Floor Design

Made In Freedom White Grip - 12"x24"
Tile is ideal for both floor and wall application indoor and outdoor.

- FLOOR AND WALL STAIN RESISTANCE
- EASY TO KEEP CLEAN
- SCRATCH AND DENT RESISTANT
- Tile is strong, hard and resistant to most types of scratches. Tile also, being an extremely dense material, doesn’t fear any denting damage, like many others flooring materials do.

- FADE AND UV RESISTANT
- Tile is very compact and impervious therefore doesn’t absorb. With tile you’ll never have to worry about water.

- WATER PROOF
- RESISTANT TO ACID
- Tile is made of clays and other naturally-occurring minerals and does not contain chemicals with potential adverse health effects (PVC, VOC, formaldehyde, plastic etc...)

- NATURAL INGREDIENTS
- Tile is completely PVC and VOC (volatile organic compound) free that means a healthier home for you. Formaldehyde is known to lead to an increased incidence of asthma. Tile has zero formaldehyde.

- ZERO PVC ZERO VOC
- Tiles are free from any PVC and VOC (volatile organic compound) materials used in vinyl and LVT.

- PLASTIC FREE
- Tile is both hard and impervious therefore inhospitable to dust mites, bacteria, fungi, mold and other irritants.

- ZERO ALLERGENES
- Tile’s inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

- FLOOR HEAT FRIENDLY
- Tile doesn’t burn, melt or give off toxic fumes when exposed to fire.

- FIRE PROOF
- Tile is both dog and cat scratch proof.

- PET FRIENDLY
- Tile is snow and ice proof.

- RESISTANT TO FROST
- Tile’s inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

- VERSATILITY
- This is ideal for both floor and wall applications indoor and outdoor.

- ENERGY EFFICIENT
- Tile when properly installed and maintained can last for decades. Thanks to its long service life and easy maintenance, porcelain tile is very cost effective over time when compared to flooring products that need to be replaced more frequently.

- VERY LONG SERVICE LIFE
- Tile’s inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

- COST SAVING OVER TIME
- Tile’s inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

- RESISTANT TO ACID
- Tile’s inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

- DOESN’T BEND
- Tile is hard and compact.

- EASY TO KEEP CLEAN
- Tile’s inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

- FLOOR HEAT FRIENDLY
- Tile’s inherent thermal mass reduces peak heating and cooling, which helps moderate temperature swings in your home.

- VERSATILITY
The color of tiles printed in this catalog may differ from actual tiles. Tile color reproductions in this catalog are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a color, we recommend that you contact your local representative, who will provide you with a sample piece of the requested tile.

This porcelain tile product is manufactured with a V2 shade variation. Remember that the amount of color as well as the texture of each piece may vary from tile to tile. Inspect the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible color difference.

Impact the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible color difference.
RECOMMENDED USE
Made In matt finish is recommended for indoor floors, walls, countertops, and outdoor walls in commercial and residential applications. The use of Made-In matt finish is not recommended for outdoor floors (for that application use Grip finish or Frontier20). Landmark recommends an offset no greater than 30%, if a staggered pattern is required for tiles of 20” inches or longer. Landmark recommends the use of leveler for a proper installation.

CARE AND MAINTENANCE
Do not apply any wax or sealer to the product after installation. Regular cleaning is the best way to keep tiles looking good. Use clean, hot water (add household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. Please visit lcusa.com. For further information regarding the care and maintenance of Landmark products.

WARRANTY
Landmark guarantees that its products will meet or exceed the performance specifications set out in ANSI A137.1- 2012 and in the performance specifications section of the Landmark general catalog. For more information, please visit our website at lcusa.com.
